Importance: High

See attached to be added to the main document. I have thought long about various options on presenting it other than where it was originally and think all of them are equally problematic. Therefore I suggest the best placement is at the end of the animal d-r. However with a different title (see the attached). It is still longer than what I would like. See if you like the framing of this in the context of uncertainties as done on the last page. I have to leave but you can call me on the cell.
